- Specialty focus on North Coastal San Diego
- Member, BBB

Four by Four Construction:

Four by Four Construction is based in La Jolla. It was started nearly two decades ago by three brothers: Jeff, Dean, and David Fargo. They grew up in the San Diego construction trade, working through high school and college degrees, then continued in the family line as supervisors and project managers before starting Four by Four Construction in 1991.

Four by Four has residential and commercial divisions. The residential division has built 223 custom single-family homes in North Coastal San Diego, including properties in La Jolla, Del Mar, Solana Beach, Cardiff by the Sea, Rancho Santa Fe, and Carmel Valley. Four by Four homes have been recognized for their outstanding workmanship and detailed craftsmanship. The commercial division has built more than 600,000 square feet of commercial projects and 200,000 square feet of tenant improvements. Over the years, Four by Four has earned a reputation as one of the area's premier general contractors.

The founders still actively manage each project. And, the company's long personal history with local tradesmen and subcontractors lets it tap into a deep and well-connected talent pool to acquire top professionals for every facet of every project.

Nowhere is their combined skill, art, and attention to detail more evident, than in the homes at Del Mar Windmill Estates.
